

World Water Day is March 29<sup>th</sup>. Here are some ways to save water.

Water your yard and outdoor plants early or late in the day to reduce evaporation.

Use a shut-off nozzle on your hose.

Use plants that require less water.

Mulch around plants to hold water in the soil.

Get an Energy Star labeled washing machine.

Use a low flow showerhead.

Wash only full loads.

Take shorter showers — five minutes or less is best.

Turn off the water while soaping hands and brushing teeth.

Turn off sink faucet while scrubbing dishes and pots.

Install new toilets that use less than 1.6 gallons per flush.

Put faucet aerators on sink faucets.

Use a broom, not a hose, to clean driveways and walkways.

Here are some ways to protect our water sources.

Pick up garbage

Don't bathe in lakes or rivers

Draw an idea for a World Water Day poster that tells people how to save water or protect our water sources. You must include

- World Water Day
- March 29
- A colored picture
- Sentence telling what to do or what not to do
